

B4E Climate Summit, London

26 & 28 May, 2014

Accelerating the shift to zero impact and net positive business

Objective:

Launch a hub of zero impact and net positive business models and case studies with a statement of recommendations for scaling up similar solutions from delegates

Agenda:

- Closed-loop and restorative business models
- Working towards net reforestation
- Going beyond zero carbon to become net energy generators
- Scaling zero emission transport systems
- Achieving the 100% renewable energy vision
